

TECHNICAL GUIDELINES FOR MOLDED FOAM

AUGUST 15, 2017

Internal Physical Performance Testing Report for Molded Foam

Company Name:

Production Location:

Foam Product Group:

Foam Identification (Grade):

Test Results*

Density and 25% IFD

Test Date:

Sample Number	Density	25% IFD	Limit
BLOCK 1			± 10% or 3.0 lbs (13.3 N)
BLOCK 2			
Average:			
25% IFD Variance:			
Test Date:			< 6 lbs (26.7 N)
25% IFD loss after Fatigue			
Test Date:			10% Viscoelastic (20% HR)
75% Compression Set			
Test Date:			10% Viscoelastic (30% HR)
Humid Aged 75% Compression Set			

*See *Physical Performance and Environmental Guidelines for Certification of Molded Flexible Polyurethane Foam for Use in Furniture and Bedding*, Section 1 for sampling procedure and test methods.

I confirm the information above is accurate. Name (printed): _____
